OBJECTIVE

Results-oriented Front-end developer with a love for making user-friendly, responsive websites. combining a strong design sense with knowledge of HTML, CSS, and JavaScript to create unique and eye-catching digital experiences. I am looking to add my experience to a cooperative team that is committed to producing excellent web solutions that go above and beyond for users and spur company expansion.

EDUCATION

EGERTON UNIVERSITY

Bachelor of Science in Computer Science

(Expected Graduation: October 2025)

Relevant Coursework: Data Structures and Algorithms, Web Development, Database Management Systems, Network Security.

HIGH SCHOOL: Ukia Girls Secondary School Graduated April 2021

Honors: Member of the Mathematics Club, participated in math competitions.

Relevant Coursework: Computer, Mathematics, Physics.

WORK EXPERIENCE

A self-employed freelance web developer working remotely part-time from January 2023 till the present

Using HTML, CSS, JavaScript, and WordPress, responsive websites were designed and constructed for individuals and small enterprises. Worked remotely with clients to comprehend their needs, give updates, and guarantee that project deadlines were fulfilled. Applied SEO best practices to enhance website performance and visibility in search results. Oversaw several tasks simultaneously, exhibiting excellent time- and organization-management abilities despite operating on myself.

SKILLS

Front end languages: HTML, CSS, PHP

Programming Languages: JavaScript, Java, Python, C++

Front-end Development Frameworks: Bootstrap, React

Web Design Tools: Adobe XD, Figma

Version Control: Git, GitHub

Remote Collaboration Tools: Slack, Zoom, Microsoft Teams

Self-Learning: The capacity to pick up new programming languages and technologies fast using online tutorials and resources.

Problem-Solving: Exhibited aptitude for independently troubleshooting and debugging front-end issues.

Attention to detail: A keen sense of design and the capacity to produce aesthetically pleasing and intuitive online interfaces.

Strong written and vocal communication abilities that have been cultivated via remote client and team involvement.
